filed:
Research Plan

14 September 1976

MEMORANDUM FOR: Mr. E. Raymond Platig
USC/FAR Executive Secretary

SUBJECT : Sixth USC/FAR Consolidated Research Plan
for FY 1977-78

REFERENCE : Your memorandum dated 16 August 1976

Research on issues or questions which fall within the social-behavioral sciences and humanistic studies and which have a foreign affairs focus continue to be done for the most part within the Central Intelligence Agency; therefore, we have not had a requirement for an extensive integrated external research program focusing on these areas. Occasionally special questions do arise out of this in-house research which cannot be easily managed with available resources. On such occasions, outside researchers are engaged to deal with these problems. I am attaching quantitative estimates for FY 1976 (Enclosure B) and 1977 (Enclosure C) which report on these external research projects in the areas of social-behavioral sciences and humanistic studies.
